Fishing Society

The Haliburton Forest Fishing Society continues to support the health and sustainability of our lakes through ongoing fish stocking efforts. Stocking is the major focus of the Society; this year we are expected to surpass 50,000 fish stocked since 2017! These efforts are supported by our continued relationship with the MNRF along with annual membership donations (minimum of \$25); each donation is matched by Haliburton Forest. Anglers can also contribute by completing creel surveys, located at the Main Office, which provide valuable information on fishing pressure, catch numbers, and the overall success of our stocking program. This fall, fish stocking is scheduled to take place on October 27 and 28. If you are interested in volunteering your time or have questions about the Fishing Society, please reach out to [**mwright@haliburtonforest.com**](mailto:mwright@haliburtonforest.com). Looking ahead, September 2027 will mark 10 years since the creation of the Fishing Society! Stay tuned for more as we approach this exciting milestone.
